Join a band!

Jessie loves to sing in a band with her friends.

“In our town we have a special music festival called ‘Brilliant Night’ in July every year. Then everyone can get up on stage and sing a song. My friends and I like music so much that we started a band. We have a drummer, a guitarist and a singer, but we all sing in some of our songs. We don’t play in front of other people yet, because we just play for fun. Maybe next year my band will play at the music festival!

Most songs today are about love and everyday life. I think it’s quite easy to write a song, because I just think of something that has happened to me. When I’ve written a new text, the other band members write the music.”

Jessie, 12, in East Sussex

Try a new sport!

Jordan and Lucy love to play korfbal. Here they tell us about their favourite sport.

“Do you know there is a sport called korfbal? It’s not very different from basketball and the rules are very simple. We think the best thing with the game is that the teams are mixed. There are four boys and four girls in a team. We also like korfbal because it keeps us fit.

In korfbal you can score a goal from in front of the basket or behind it. The rules say you can’t run with the ball, so teamwork is really important. You have to throw the ball to each other and it doesn’t matter if you’re short or tall – everybody can play! We both play for *Dragons* korfbal team. We’re doing really well – at the moment we’re the district champions. Sounds fun? Why not give it a try?”

Reading is fun!

Nadine reads a lot. Here she tells us why.

“We have a book club at my school and I’m a member because I love reading! In the club you find out about new books and you meet new friends. I like to read all sorts of books. When I read an exciting book, I just can’t put it down. I must know how it ends.

I often read two books a week. My favourite writers are Jackie Wilson and J.K. Rowling. Wilson writes about things that happen in real life. I think her best book is *Lola-Rose*. It’s about a girl who moves to London with her mother and brother. I won’t tell you why – you must read the book to find out!

J.K. Rowling writes fantasy books, and Harry Potter is the hero in all of her stories. Have you seen the films about Harry? I think the books are much better. I’ve read all of them, but I can’t say which one I like the best – they’re all great.”

Nadine, 11, in Cornwall
